

DESCRIPTION

STENELLA M is a premium crankcase lubricant for slow-speed crosshead diesel engines. Manufactured from highly refined base oils and carefully selected additives, STENELLA M provides very good anticorrosion and antifoam properties. The oil has a moderate level of alkalinity to neutralize acidic combustion products that can enter the crankcase. Special additives give the oil detergent properties to ensure crankcase cleanliness. The combination of detergency and excellent oxidation stability provides clean piston interiors where oil is used for cooling.

FEATURES AND BENEFITS

- Excellent rust and corrosion properties
- Enhanced detergency
- Improved thermal and oxidation stability
- Good water tolerance and separation capability

APPLICATION

STENELLA M is recommended for the crankcase lubrication of large, slow-speed marine diesel engines.

TYPICAL SPECIFICATION

SAE GRADE		30	40
Kinematic Viscosity at 40°C (cSt)	ASTM D445	97	148
Kinematic Viscosity at 100°C (cSt)	ASTM D445	11.0	14.5
Viscosity Index	ASTM D2270	97	97
Flash Point COC (°C)	ASTM D92	245	250
Pour Point (°C)	ASTM D97	-20	-18
TBN (mgKOH/g)	ASTM D2896	6	6
